

## Release Notes 1.7.8

01/25/03

The following items have been moved (migrated) to Production for use by Agencies beginning on January 25, 2003.

- Users will no longer need to manually insert a row on the Benefits Program Participation Page (Compensate Employees > Administer Base Benefits > Use > Benefit Program Participation) when processing new hires. The new row will automatically be inserted.
- Approval date will now appear on the SF50 for any cancelled or corrected actions.
- The code generating the SF50 was changed to ensure that Step 10 employees do not display Grade 0.
- REMINDER: The Comp Level field was modified as of October 21, 2002 (see Release Notes 1.7.1) to accommodate a 4-character comp level code. The field has been modified both on the Position Data Page under Position Management and the Employment 2 page of the Employee Record. Please key 4-characters in this field.
